Message from a 'Zek'

Beyond the limits of the law, all enemies of the state, Intelligence at minus 40, destruction of the Zeki, Encouraged by the cosmos, forgotten by there peers, From the desert wastes of Kora-Kum, a message, The way to the stars is open....

Exclusion and humility the emblems of there state, In Kaluga and Kolyma, the cosmos beckons upwards, Semiorika is liberated, ballistic turned deterrent, environmental monitor, A message from the human spirit, The way to the stars is open.....

To mark the Centinary of S P Korolev by John Gwynn. In honour of a fellow Engineer.
